BCG Welcomes Med Students

November 12

Virtual Event

Are you a medicine student and have you ever wondered what your role as a medicine graduate would be at BCG? Then this virtual event is the perfect way to gain insight in the world of consulting. You will get to know our BCGers Klaus Bredl and Tara Leven, who both joined BCG with a medical background. Experience their insights into their health care and pharma cases firsthand and learn how we leverage the variety of academic disciplines in our teams to create value for our clients. We look forward to an interactive session, where you can ask all your questions in an open and welcoming atmosphere!

We invite medicine students in their 5th semester or higher from Swiss universities and young professionals with up to 2 years of work experience to apply with their CV by November 5 at on.bcg.com/welcomes_medicine

This event will take place via Zoom on November 12, from 6-7pm.
